SOLID WASTE FACILITY PERMIT1. Facility Permit Number: **07-AC-0043**
Page 2

12. Legal Description of Facility: Section 15 SW of Township 2 North, Range 1 East Baseline and Meridian Assessor's Parcels No. 073-200-014 and 073-200-015 excluding 6.2 acres disjoined from these parcels to site Mt. Diablo Recycling Center and EA Notification chipping and grinding operation. Reference Figure 4 of 2008 Report of Station Information.

13. Findings:

- a. This permit is consistent with the May 1993 Contra Costa County-wide Integrated Waste Management Plan (CoWIMP) which was approved by the California Integrated Waste Management Board on December 15, 1993. This facility will, as a condition of its permit, recover for reuse or recycling at least 15% of the total volume of waste which originates in the City of Pittsburg and 5% of the waste originating in all other jurisdictions served. This facility has been identified in the NDFEs of 12 jurisdictions in Contra Costa County together comprising a majority of the population of the County, pursuant to PRC § 50001 (a)
- b. This permit is consistent with standards adopted by the California Integrated Waste Management Board (CIWMB). PRC § 44010.
- c. The design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal.
- d. This facility is in conformance with applicable fire standards as determined by the Contra Costa County Fire Protection District.
- e. A final environmental impact report (FEIR) on the project was certified by the lead agency (Pittsburg City Council) on February 21, 1995. A Notice of Determination dated 3/8/95 is on file with the State Clearinghouse pursuant to Public Resources Code, Section 21081.6. SCH No 94063017. The LEA concurs with the decision of the lead agency that the FEIR is legally adequate and fully analyzes and recommends the adoption of mitigation measures that reduce all identified significant adverse environmental impacts to a less than significant level.
- f. The following authorized agent has made a determination that the facility is consistent with, and designated in, the applicable general plan: *Pittsburg City Council, Resolution No. 95-8143*
- g. The following local governing body has made a written finding that surrounding land use is compatible with the facility operation: *Pittsburg City Council, Resolution No. 95-8143*

14. Prohibitions:

The permittee is prohibited from accepting any liquid waste, sludge, non-hazardous waste requiring special handling, designated waste, or hazardous wastes unless such waste is specifically listed below, and unless the acceptance of such waste is authorized by all applicable permits.

- Appliances and white goods may be accepted providing that refrigerants, PCBs, oils, lubricants, and mercury switches are removed by licensed contractor prior to shipment off site, pursuant to PRC § 42170.
- Electronic waste may be accepted providing all such waste be shipped only to licensed recyclers under manifest.

15. The following documents also describe and/or restrict the operation of this facility:

	Date		Date
Report of Facility Information	July 2008	BAAQMD Permit to Construct #13880	3/23/95
		BAAQMD Permit to Operate #13880	3/23/95
		NPDES SWPPP # 2 07S011211	10/13/94
Conditional Use Permit No. U-94-07	3/6/95	Contra Costa County HSD Hazardous Materials Inventory and Emergency Response Plan	8/11/95
Environmental Impact Report SCH # 64063017	2/21/95	Traffic Management Plan	4/95
		Cal EPA ID No. 000137939	3/20/95

16. Self-Monitoring. Results of all self-monitoring programs as described below and in the Report of Facility Information and Conditional Use Permit, will be reported on forms supplied by the LEA, or similar forms approved by the LEA. Due 15 days following the end of each reporting period:

	Program	Reporting Frequency	Agency Reported To:
1)	All special/unusual occurrences and actions taken by the operator in response. Special occurrences may include weather conditions that adversely affect facility operations, fire, explosions, accidents and/or injuries, any condition or incident requiring closure of the facility, and all incidents of unlawful disposal of prohibited and/or hazardous materials.	Quarterly	LEA
	The LEA must be notified within 24-hours of occurrences that may pose a health and/or safety hazard.		
2)	All complaints regarding the facility received by the operator and action taken to resolve any justified complaints. The operator is required to transmit to the LEA individual complaints within one (1) day following receipt of complaint by the operator.	Monthly	LEA
3)	(a) Tons of MSW and material received at the facility per day. (b) Tons of MSW and material originating in the City of Pittsburg received at the facility per day.	Quarterly	LEA
4)	(a) Total amount of material salvaged at the facility for the reporting period.	Quarterly	LEA
	(b) Total amount of material salvaged at the facility originating in the City of Pittsburg for the reporting period.	Quarterly	LEA
	Note: A higher degree of specificity regarding material types, material destinations/end uses, and jurisdictions of origin may be required if such specificity is mandated to facilities or jurisdictions by the California Integrated Waste Management Board.		
5)	Total amount of waste disposed at each disposal facility for the reporting period.	Quarterly	LEA
6)	Number of vehicles using the facility per day. Transfer vehicles, outgoing materials from material recovery operations, collection vehicles and self-haul vehicles must be totaled separately.	Quarterly	LEA
7)	The quantities and types of hazardous wastes, medical wastes or otherwise prohibited wastes found in the waste stream and the disposition of these wastes.	Quarterly	LEA
8)	Reports that may be produced as a requirement of other agencies.	Upon request	LEA, CMO
9)	Such information as may be necessary in order for the City of Pittsburg to comply with AB 939 reporting requirements.	Upon request	LEA, CMO

17. LEA Conditions:

- A. This facility shall comply with all applicable State Minimum Standards for Solid Waste Handling and Disposal.
- B. This facility shall comply with all federal, state and local requirements and enactments including all mitigation measures contained in any certified environmental document filed pursuant to Public Resources Code, § 21081.6
- C. The operator shall comply with all notices and orders issued by any responsible agency designated by the Local Enforcement Agency to monitor the mitigation measures contained in any document referenced within this permit pursuant to Public Resources Code, 21081.6
- D. The operator shall maintain a copy of this Permit at the facility available at all times to facility personnel and to Enforcement Agency personnel.
- E. Additional information concerning the design and operation of this facility shall be furnished on request of the Local Enforcement Agency.
- F. The operator shall install and maintain a sign at the entrance indicating that no hazardous or liquid wastes are accepted and that all vehicles containing refuse, entering or leaving the facility, must be fully tarped.
- G. The operator shall comply with the required Customer Litter Control/Tarping Program.
- H. No polluted surface waters shall leave this site except as permitted by a National Pollutant Discharge Elimination System permit issued in accordance with the Federal Clean Water Act and the California Water Code.
- I. The operator shall maintain an operational, calibrated radiation monitor at the scales to detect radioactive materials, at all times, during the receipt of receipt of refuse.
- J. The operator shall comply with all provisions of the Hazardous Waste Exclusion Plan as described in the Report Transfer/Processing Facility dated July 2008. Any changes in this program must receive prior approval by the LEA. The following conditions supplement said plan:
 - (1) During hours of operation, an attendant shall be present at all times to supervise the loading and unloading of waste material.
 - (2) The minimum number of random waste loads to be inspected at the facility is one per day.
- K. Non-recyclable materials/waste shall not be stored on the premises for longer than 48 hours.
- L. The maximum storage period for recyclables is 60 days. All stored materials must be contained in roll-off containers or as approved by the LEA. The LEA reserves the right to reduce this time if storage presents a health hazard or becomes a public nuisance.
- M. The operator shall maintain a log of special/unusual occurrences. This log shall include, but is not limited to, fires, explosions, the discharge and disposition of hazardous or un-permitted waste, and significant injuries, accidents or property damage. Each log entry shall be accompanied by a summary of actions taken by the operator to mitigate the occurrence. The operator shall maintain this log at the facility so as to be available at all times to site personnel and to the Enforcement Agencies' personnel. The LEA must be notified within 24-hours of occurrences that may pose a health and/or safety hazard.
- N. Incidents of deliberate, unlawful disposal of significant quantities of prohibited materials, other than incidental household hazardous waste, shall be reported promptly to the following agencies:
 - (1) Contra Costa County Environmental Health
 - (2) City of Pittsburg, Local Enforcement Agency
- O. The operator shall comply with the requirements of all applicable laws pertaining to employee health and safety; the operator is to have a written Safety Plan, available for review by the LEA, at the facility. All employees shall be provided with personal protective equipment necessary to attenuate adverse occupational exposures.

- P. The operator shall maintain copies of all inspection reports and permits issued by the LEA or other regulatory agencies at the facility. These documents shall be made available to authorized representatives of regulatory agencies during normal office hours.
- Q. The operator shall implement all conditions as specified in the City of Pittsburg City Council Resolution No. 95-8143, CUP No, U-94-07 which is incorporated into this permit by reference. The LEA, at its discretion, or in conjunction with other City Departments, may enforce each and every condition of approval contained in said CUP.
- R. This permit is subject to review by the LEA and may be suspended, revoked or modified at any time for sufficient cause.
- S. The LEA reserves the right to suspend or modify waste receiving operations when deemed necessary due to an emergency, a potential health hazard, or the creation of a public nuisance.
- T. The operator shall notify the LEA, in writing, of any proposed changes in the routine facility operation or changes in facility design during the planning stages. In no case shall the operator undertake any changes unless the operator first submits to the LEA a notice of said changes at least 180 days before said changes are undertaken. Any change determined by the LEA to be significant will require a revision of this permit.
- U. Scavenging is not permitted.
- V. This permit will be reviewed five years after the issuance date and may be revised or modified as needed.
- W. This facility is permitted to receive 1,500 tons of MSW and other materials per operating day and shall not receive more than this amount without a revision of this permit
- X. No activity other than approved by this permit shall occur without express prior LEA approval.
